● SAFETY INFORMATION

WARNING

- ▶ Do not expose your computer to rain or moisture, in order to prevent shock and fire hazard.
- ▶ Never install your computer in wet locations.
- ▶ Do not open the cabinet to avoid electrical shock. Refer to your nearest dealer for qualified personnel servicing.
- ▶ Never touch un-insulated terminals or wire unless your power adaptor and display monitor are disconnected.
- ▶ Locate your computer as close as possible to the socket outline for easy access and to avoid force caused by entangling of your arms with surrounding cables from the computer.
- ▶ When using eBox-4, avoid using or installing the modem to the serial port during a storm or a lightning.
- ▶ Do not use the modem or a telephone to report a gas leak in the vicinity of the leak.
- ▶ USB connectors are not supplied with Limited Power Sources.

DO NOT ATTEMPT TO OPEN OR TO DISASSEMBLE THE CHASSIS (ENCASING) OF THIS PRODUCT. PLEASE CONTACT YOUR NEAREST DEALER FOR SERVICING FROM QUALIFIED TECHNICIAN.

REGULATORY

FCC CLASS A NOTE

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference in which case the user will be required to correct the interference at his own expense. Testing was done with shielded cables. Therefore, in order to comply with the FCC regulations, you must use shielded cables with your installation.

WARNING

This product Complies with EN55022 Class A. In a domestic environment this product may cause radio interference in which case the user may be required to take adequate measures.

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This digital apparatus does not exceed the Class A limits for radio noise emissions from digital apparatus as set out in the interference - causing equipment standard entitled "Digital Apparatus", ICES-003 of the Department of Communications.

Cet appareil numérique respecte les limites de bruits radioélectriques applicables aux appareils numériques de Classe (A) prescrites dans la norme sur le matériel brouilleur: "Appareils Numériques", NMB-003 édictée par le ministre des Communications.

MANUFACTURER'S DECLARATION OF CONFORMITY

This equipment has been tested and found to comply with the requirements of European Community Council Directives 89/336/EEC and 73/23/EEC relating to electromagnetic compatibility and product safety respectively.

ATTENTION

This product has been designed and certified to comply with certain regulatory requirements pertaining to Information Technology Equipment. This product has not been designed for use as a medical device. Without limitation of the foregoing, this product is not intended and has not been certified for use in a hospital or clinical environment to diagnose, treat, or monitor patients under medical supervision, and is not intended and has not been certified to make physical or electrical contact with patients, nor to transfer energy to or from patients and/or to detect such energy transfer to or from patients.

PURCHASE AGREEMENT

Version 1.1 – 2002/11/19

PURPOSE:

In accordance to the general commercial conduct of Trust and Fair Trade, herewith below is the agreement for the protection for both parties, DMP and Users in pursuant of trading.

PRODUCT DESCRIPTION :

With this product, herewith also known as eBox-4, which is a simplified & an economical design of an embedded computer for Special Purpose Personal Computing. The basic specification of this product comprises of the latest x86 technology design, and comes in 3 different speed version, which runs at a speed of 1.2GHz, with onboard 512MB System memory, Display, USB, Keyboard, PS2 Mouse, LAN, and Audio Interfaces.

DISTRIBUTION CONVENTION:

1. This Product includes a Gift box, an inner case, a eBox, a Power adaptor, Allen ranch & Drivers CD, and IDE cable (special eBox-4 configuration do not have the IDE cable). Upon receiving this product, kindly please refer to the User' Manual to check for the contents and appearance of this product; contact immediately your nearest dealer or DMP office for any defective or missing parts. The supplier will not be responsible for any reported discrepancy thereafter the expiration period of 3-days from the date of purchase.
2. In consideration of transportation and the cost of storage, the supplier provides to the distributors a warranty of 12-months. This warranty covers the failure caused by hardware breakdown (excluding hard drives), but does not cover the act of misuse and mishandling.
3. The supplier will not accept unknown post, therefore if you wish to repair or to return your goods – kindly please contact your nearest dealer to make your declaration, and at the same time, apply for a RMA number (RMA stands for Return Merchandise Authorization – please see the RMA form and fill-up for authorization).
4. The freight for Return goods for repair will follow the International customary practice and convention: Both parties is to pay for freight of one shipment each. The shipper is required to prepaid the freight from the place of origin (This means that the Returnee (user) covers the freight for return goods, while the Supplier covers the freight for goods after the repair).
5. Obsolete warranty is referred to as: (1)Expiration of warranty or (2)Damage due to misuse within warranty. The Supplier will be taken into consideration of the circumstances, to provide repair service with charges expense for obsolete warranty. This expense includes the cost of material and the cost of labor.

NOTE:

If there is other particular issue not listed in the above conditions, both parties agreed to follow the General Law of Commerce with fair and reasonable discussion in handling and resolving the argument.

PREFACE

eBox-4 : SLIM, MINI BUT POWERFUL COMPUTER

DMP introduces an industrial classic in the computing industry, by featuring eBox-4, a chef d'oeuvre compact PC that connects people through networking via global internet across the continents over the channels of sea bay. The conquest for browsing e-information through wired LAN/WAN. This portable device is handy for travelers and service technicians who worked in and out of the office. For office desk workers, this showpiece occupies very little space on a corner of the table, and it is so convenient that you may lock it in your drawer after office hours.

A jewel in the crown eBox for thin client users, which is handy-rugged-robust. eBox-4 serves as the Internet Appliance that offers state-of-art design for applications surrounding networking, computing, transaction and information transport.

DMP connotes the eBox-4 for small business enterprises to serve these boxes to users for the connection to a server as thin client. The eBox achieves multi-servers requirement to serve as firewall, mail-server, print server, and many other single task application in the office. Furthermore, with eBox-4, business executive can work his way from the office to home, a student can do his assignment from the dormitory and continue back at home. eBox-4 allows you to use your computer with just one finger press at the power button. It is built in an awesome mechanical dimension of 170×124×38mm(or 56mm), this is just a right device for space conscious environment.

CONNECTING THE KEYBOARD AND MOUSE

Describing Mouse actions

Action

Description

Point

- Slide and point your mouse to your desired position.

Click

- Press the left button once.

Double-click

- Press the left button twice.

Right-click

- Press the right button once. When selecting (most) programs, this action displays a shortcut menu of the context-sensitive choices.

Scroll wheel

- Move your finger along the wheel of your mouse (just upright your middle finger) and scroll vertically to move page upward and downward.

Describing Keyboard

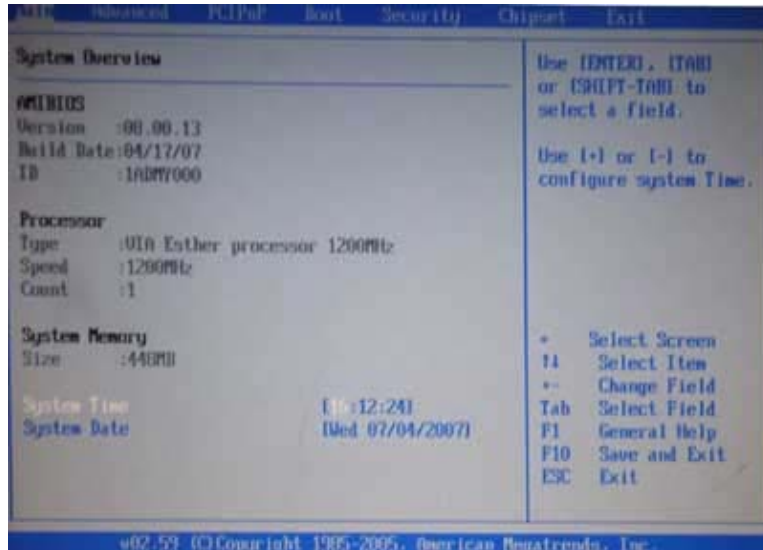

The keypad usually comes in standard QWERTY; except that different language(s) keyboard comes with additional special characters..

BIOS

RECONFIGURING eBox-4

1. Take note that AMI BIOS is used in the eBox-4. To reconfigure the computer, depress or hit the key to enter your **BIOS setup main menu**.
2. Select from the menu, the desired setup for change.
3. Press <Esc> to go back to main menu.
4. Move your cursor to "Save Settings and Exit", press "Y" to save the changes that you just made. eBox-4 will restart accordingly to your new setup.

TAKING CARE YOUR COMPUTER

This section gives you guidelines on using eBox-4 computer – Safe using, Storing and Handling.

STORING

- ▶ Do not place your computer in a location that is subject to:
 - Heating sources, such as stove, oven, heater, radiator or air duct
 - Direct contact from sunlight
 - Rain or moisture area
 - Excessive dust accumulation area
 - High humidity place
 - Constant or occasional mechanical movement, vibration or shock
 - Strong magnets or magnetic fields or magnetically unshielded speakers
 - Ambient temperature of more than 95°F (35°C) or less than 32°F (0°C)
- ▶ Do not place other electronic device or electrical equipment near your computer. The electromagnetic field of the computer may cause interference subjecting to malfunction.
- ▶ Provide adequate air ventilation (circulation) to prevent internal buildup of heat. Do not place your computer near the wall, behind the curtains or draperies, in between two books that block its ventilation slots. Leave a space of at least 8 inches (20cm) behind the sides and back panel of the computer.
- ▶ Change of environmental temperature: Problems may occur when there is a sudden change of environmental temperature, or if the computer is brought directly from a cold location to a warm one, moisture may condense inside your computer. Turn off your computer, and contact your nearest dealer.
- ▶ Checking the surrounding appliance(s) before using your computer. Since the computer uses high-frequency radio signal and may interface with radio or TV reception causing interference or poor signal display. When this happens, relocate the computer by a suitable distance away from the set.
- ▶ Do not drop the computer from the working table nor place heavy objects on top of the computer.

USING CABLES FOR CONNECTION

- ▶ To avoid problem, use only the specified interface cables in your accessory bag. The supplier will not be responsible for the connection arising from the other unspecified peripheral equipment.
- ▶ Do not use cut or damaged cables for connection.

CLEANING YOUR COMPUTER

- ▶ Clean the computer with a soft, dry cloth or a soft cloth lightly moistened with a mild detergent solution.
- ▶ Do not use any type of abrasive pad, scouring powder, or solvent such as alcohol or benzine, as these may damage the finish of your computer.
- ▶ When a solid object falls or a liquid spills onto the computer, turn off the computer immediately and unplug the LAN and power cables. Contact a qualified person or your dealer to check the computer before you use it again.
- ▶ Always disconnect the power cord from the power source before cleaning the computer.

TROUBLESHOOTING

This section describes the techniques of resolving some basic problems that you encounter when using your computer. For more troubleshooting guidelines, please contact your nearest dealer for technical support.

TROUBLESHOOTING YOUR EMBEDBOX

A. Computer does not start

- ▶ Make sure the computer is properly secured and plugged into a power source before it is turned on. Make sure the power indicator shows the power is on. See section 2 for more information about "eBOX-4800 Overview" & eBOX-485x Overview.
- ▶ When the computer is plugged into a power strip or the UPS (Uninterruptible Power Supply), make sure the power strip or UPS is turned on and working normally.
- ▶ Check if your VGA or LCD monitor is properly plugged into a power source and turned on. Make sure the brightness and contrast controls are adjusted correctly. See the manual that came with your display (monitor) for details.
- ▶ Check if your power control button does not function, by removing the AC adaptor. Wait for one minute, and then reattach all power connection before pressing the power button.
- ▶ Condensation may cause the computer to malfunction for a while. If this happens, do not use the computer for at least one hour.
- ▶ When you have checked all the above guidelines and the computer does not work. Remove the power adaptor from the computer, unplug the power cord, and plug it in again. Then turn on the power.

B. BIOS Error Message –

BIOS error message appear when my computer starts

If the BIOS error message appears, press any key to resume or, hit to enter **BIOS setup main menu**, follow these steps:

1. Press , and the **BIOS Setup main menu** appears, check if HDD is detected at "Pri Master". If it is not detected, use "Sel" keys < ↑ ↓ > to choose "AUTO", then go back to the main menu by pressing <ESC>. Move your cursor down with "Sel" keys < ↓ >, and choose "Save Settings and Exit", a message dialog appears as seen below, hit <Enter>.

"Save current settings and exit (Y/N)? Y"

eBox-4

13

2. Go to "Auto Configuration with Optimal Settings" using the "Sel" keys < ↑ ↓ >, then press <Enter>. A message dialog appears as seen below, hit " Y " key and press <Enter> to save and recover the factory setting.

"Load high default settings (Y/N)? N "

C. "Operating System Not Found" –

A message indicating that "Operating system not found" appear when my computer starts (Windows won't start)

- ▶ Enter your BIOS setup main menu by pressing key, be sure that your C: drive is enable.
- ▶ If Windows still does not start, follow these steps to initialize the BIOS:
 1. Turn off the computer.
 2. Remove any peripheral devices connected to the computer.
 3. Restart the computer..
 4. Press to enter **BIOS Setup main menu** window.
 5. Follow the steps as written in item B. **BIOS error message**.
- ▶ **For eBox-4** : If you have just connect your computer to a USB Devices, remove these peripherals.. And restart your computer to confirm that the Windows operating system starts properly. If your computer continues to display the message "Operating system not found," and Windows does not start, please contact your nearest dealer for servicing.
